

src/utls/scoresort.h

```
graph TD; A[src/utls/scoresort.h] --> B[vector]; A --> C[string];
```

A diagram illustrating dependencies. At the top is a gray rectangular box with a black border containing the text 'src/utls/scoresort.h'. Two blue arrows originate from the bottom center of this box. One arrow points diagonally down and to the left to a white rectangular box with a gray border containing the text 'vector'. The other arrow points diagonally down and to the right to another white rectangular box with a gray border containing the text 'string'.
